David Holcomb
FOUNDER

X

Sometimes it's essential for our time in the kitchen to be quick and dirty for jam packed days and meals on the fly. Other times, we like to relish in the moment of each snip, zest and whip. No matter what, we aim to make the process of preparing and cooking a meal simple and easy. We examine every part of meal prep, and design all our tools and gadgets to make quick tasks and tedious chores enjoyable. We take pride in our bold, original designs and this launch is no exception as we continue to expand our line of fresh prep gadgets.

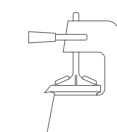

What makes 2018 different is our evolution into more refined kitchen tools and the launch of our new craft coffee line, CoffeeHouse by Chef'n®. These new assortments of products blend fresh prep with countertop design to be tastefully ingenious in both form and function. Thoughtfully incorporating glass, stone and ceramic, each of these carefully crafted products make daily habits as well as ongoing (and growing) projects easier from start to finish.

More juice with less effort

Fresh Force™ for the countertop

Meet the FreshForce™ Tabletop Citrus Press. We're exceptionally proud of this countertop addition to the best-in-class FreshForce™ family. This beautifully designed press blends the innovative FreshForce™ gear mechanism with a countertop-worthy design that, like the handheld FreshForce™ Citrus Press, delivers more juice with less effort. This means you don't have to think twice about indulging in fresh juice each and every morning.

FRESHFORCE™

Craft coffee at home

Introducing CoffeeHouse by Chef'n®, steeped in the craft coffee culture of our home town, Seattle, and designed with the Chef'n eye for Tasteful Ingenuity. This new line is a result of years of research by the Chef'n design team. It covers everything from storing to serving to create a line of products that make the many processes of brewing an unbeatably good cup of coffee that much better.
