

## Who we are...

### We ARE Sky Creative!

With the combined experience of over 35 years of trading and contracting experience, our team has established an enviable reputation as a global and regional leader in the field of procurement and logistics. This is due to our combination of highly-efficient processes, visionary and creative management, and our ability to effectively source the products and services our clients' demand- on time, first time, every time.

Meeting and exceeding client requirements and expectations is our chief and overriding purpose. Handling the diversity of our clients' industries, locations, requirements and needs is at the heart of everything we do, further enhancing our reputation and client satisfaction.

Our worldwide offices and network partners allow us to source and supply the best quality and technically-suited products and services for our clients' requirements, with the flexibility for greater quality and budget savings that only a global network can provide.

It is hardly surprising, then, that our client list encompasses a multitude of market sectors, including multi-national institutions, internationally-positioned government agencies, military, media, labor camps, construction, educational facilities, and the oil and gas sectors.

### Vision

We support customers by building and developing creative flexibilities and support solutions in order to anticipate, service and exceed the specialized requirements of our customers. Through this, we play a key communal role in the growth of the State of Qatar and its commitment to the 2030 Vision.

### Mission

- Create and maintain long-term, mutually successful business relationships with our clients
- Apply our superior skills, innovative processes and comprehensive market understanding to our clients' benefit
- Construct results-oriented solutions that anticipate and meet client requirements, competitive advantage and enable growth and future success
- Promote only the highest quality products and services, with honesty, transparency and integrity
- Attract the best talent worldwide and enable them to fully meet their personal and professional goals

## Our Trading Groups

Across all of our trading divisions, we are committed to meeting and exceeding client requirements for product suitability, volume, quality, timing and costs.

We accomplish these goals through a strategy of modular and individually-balanced elements, including supply, budget analysis and allocation, forecasting, procurement to specific needs, value- and quality-led purchasing, and superior logistics that maximize efficiency from order to delivery on time, first time, every time.

We pride ourselves on sourcing and supplying quality products from around the world, to meet the most exacting client standards, on time, in the correct quantity, and for a market-driven fair price.

It is this dedication to all of our clients that has won us our place as 'supplier of choice' for leading companies and operations worldwide.

### **Our trading categories include, but ARE NOT LIMITED TO, the following:**

**Office Supplies:** As another one of our specialties, we provide a full range of various office supplies – for the workplace, maintenance shop, to the transportation warehouse - our function and administrative goods are specifically designed for the customer to have full flexibility in accomplishing their most crucial business support works.

We have broad representation across the Middle East and currently offer general office supplies, computer supplies, business machines and related supplies, and office furniture from local, regional, 'MADE IN THE USA' and international brands and services by means of a dedicated sales force, catalogues and web access.

**Furniture:** As one of our specialties - with in-house interior decorators and designers available - we provide the most efficient, premium quality and most durable office furniture in the Gulf region. Our furniture includes desks, chairs, credenzas, entertainment centers, filing cabinets, safes, reception desks, conference rooms, office panels and partitioning. For housing of all kinds, we provide quality bunk and bed framing of steel and/or wood, common and custom-size mattresses, varied linens and sheets, blankets, wall lockers, curtains, trash bins and fans.

**Information Technology (IT) Solutions:** Products in this category include the highest quality computers, servers, monitors, servers, power backups, projectors, copiers, handheld mobile devices, cables, hubs, switches, routers, fiber optics, storage drives, software, miscellaneous accessories and security system related solutions.

**Consumer Electronics and Appliances:** Products include televisions of all sizes and functions, music systems, cameras, videos and video gaming systems and accessories. The housing appliances and accessories we offer include vacuum cleaners, microwaves, washer and dryers, stoves, air-conditioning units, fridges, and unlimited kitchen equipment and tools.

**Building Materials:** We source and supply items such as a complete range of wood styles and types, steel, paint, welding materials, aluminum, pipes, fiberglass, chemicals, additives, paving, concrete mixtures, flooring, tiles, industrial doors, sub-base and ladders.

We also source and supply many brands of generators, transformers, compressors, pumps, water tanks, heating systems, drilling tools, engines, HVAC systems, portable toilets, storage and refrigerated containers, racking systems and pressure washers, and spare parts of every type.

**Safety:** Our customers can consistently rely on our quality safety products that include flammable storage cabinets, eye-wash stations, showers, face shields, first aid kits, gloves, safety helmets, hearing protection, protective clothing, footwear and eyewear, respirators, safety guards and rails, hand tools, spill kits and other related and specialized accessories.

**Packing and Logistics:** Because our client's property is our responsibility as well, we provide a supreme product line that includes common and custom-size boxes, bubble and shrink wrap, conveyor systems, asset covers, and other transport supplies and equipment such as pallets, markers, scales, stickers, storage bins, strapping, stretch-wrap machines, trolleys and walk ramps.

### **Leading Quality and Control**

We use the most advanced and innovative practices and systems to meet our clients' needs, whether it is to advance logistics and goods in anticipation of changing client-driven demands or to provide for virtual-time monitoring and service for Just in Time (JIT) client mission inventories.

Our quality control and assurance teams guarantee that we meet and exceed client specifications in terms of quality, quantity, price and delivery. To maintain this, our QA/QC program is designed to showcase consistency, comparability, transparency, and completeness.

### **Value-Driven Budgets**

The Sky Creative team purchasing power, globally networked connections and multiple market insight allow us to make best-value employment of client budgets and economy objectives; if the goals are to reduce costs or improve quality- we are your BEST advocate and choice for any and all requirements.

We are THE leader in our professional field, all of our operational regions, and the preferred choice by our clients worldwide for BEST VALUE procurement needs!

### **Our Creative Team**

Collectively, the Sky Creative team has over 35 years of experience in logistics, procurement, and market research, acquisitions, and project and contract management. We recognize the vital role our employees' powerful knowledge, skills and abilities play in building and sustaining the company while focusing on exceeding client satisfaction.

At every level - from senior management to the loading bay - we support and provide training and development opportunities, encourage entrepreneurship, initiative and 'outside-the-box' creativity. We believe in mentoring and coaching success as an 'across the board' team to achieve true business and professional success in this transparent and competitive commercial environment.

ELECTRICAL & OTHERS

Distribution is authorized to US Government agencies, including 379 ECONS and their US Government agency customers; however, private individuals or enterprises are not eligible to obtain the catalog and pricing information contained herein as it is considered the sole and owning property of Sky Creative Trading and Contracting. Distribution of this subject catalog outside of official or 'need to know' channels are not authorized unless permission is granted by the General Manager of Sky Creative Trading and Contracting.

NOTE: All Images and pictures incorporated and provided are only examples of current availability and style(s); although pricing is unchanged through current approved price lists, stock of models and image representations may change and are based only on availability. In most instances, item material and product samples may be able to be provided upon availability, and schedule request. Please contact Sky Creative (maher@skyctcq.com or rose@skyctcq.com) for most current stock availabilities and models on hand.

REVISION: 1st Edition, October 2013
